Tarsus Technologies (Pty) Ltd
Company Reg. No 1995/000439/07

22nd July 2009

To whom this may concern,

Futuristic Training and Development

It is a genuine pleasure for me to recommend Marilyn Overend and Val van der Ploeg from Futuristic Training and Development, who have facilitated various training courses at Tarsus over the past five years.

Tarsus Technologies is a computer hardware distributor that distributes leading IT brands to the Southern African IT reseller channel. Tarsus' in-house training college, Channel Business College, offers a series of practical business courses all specifically aimed at assisting our resellers to dramatically improve the bottom line of their business.

The courses Marilyn and Val have facilitated have ranged from leadership, selling skills and customer care. They are familiar with Tarsus' needs and tailor their courses to suit our requirements.

All their courses have been well attended and we have had excellent feedback from our customers and staff on these courses.

Marilyn and Val are always extremely organised, professional and reliable. I would highly recommend their services.

Please do not hesitate to call me if you would like any additional information.

Yours faithfully,
